

S.W.E.A.C SHOUT OUT!

February 2018

The Sudbury Workers Education and Advocacy Centre is a community & worker based, non-profit organization committed to improving the lives and working conditions of people in low-wage and unstable employment.

February is black history month

This time is meant not only to celebrate the contributions of people of color to our history, but also to reflect on the persistent challenges that they continue to face in our society. For example, racialized communities face higher rates of poverty and people of colour continue to have less positive employment outcomes than their white counterparts⁽¹⁾. This month reminds us that we all have a role to play in making our society more just and equal.

Join SWEAC on Tuesday the 13th to Show Some Love to Tim Hortons Workers!

SWEAC is taking part in the national day of action to show Tim Hortons workers how much we appreciate them by handing out Valentine's to the workers at as many locations as possible. Let big business know that they will not undermine our victories and that we will defend workers and continue to fight for better working conditions. Show your support by handing out a [card](#) and registering your action [here](#)
